

AG 8: Converging Evidence? Embodied Views of Basic Categories in Language and Cognition

Preliminary programme and schedule

Wednesday, 05.03.2014

- 14:00 *Roel Willems und Dietmar Zaefferer*: Welcome
- 14:05 *Dietmar Zaefferer, Roel Willems and Patric Bach*:
Embodiment and converging evidence for basic categories in language and cognition
- 15:00 *Gabriella Vigliocco*:
The role of body-related information in lexico-semantic representation
- 16:00 Coffeebreak**
- 16:30 *Giosuè Baggio*: Perceptual adaptations and aftereffects in testing embodied hypotheses
- 17:30 *Berry Claus*: Embodiment and modalisation: Grounding of desiderative modality
- 18:00 *Tyler Marghetis and Ernesto Guerra*:
Spatial grounding of “coordinating elements” in language and mathematics
- 18:30 End of session**

Thursday, 06.03.2014

- 09:00 *Friedemann Pulvermüller*:
Action perception theory of cognitive cortical function: from actions to speech acts
- 10:00 *Francesca Citron and Adele Goldberg*:
Reading taste metaphors recruits primary and secondary gustatory cortices
- 10:30 *Marit Lobben and Laura W. Bakke*: Neural representation of size domain Chinese nouns
- 11:00 Coffeebreak**
- 11:30 *Daniela Sammler, Pascal Belin and Marie-Hélène Grosbras*:
Prosody perception in the laryngeal premotor cortex: A TMS study
- 12:30 *Pamela Perniss, David Vinson, Neil Fox and Gabriella Vigliocco*:
Involving the body in sentence comprehension: Action-sentence compatibility effects in British Sign Language and written English
- 13:00 End of session**

Friday, 07.03.2014

- 09:00 *Benjamin Bergen*:
Pronouns, person, and perspective: how features of grammar modulate embodied comprehension
- 10:00 *Benjamin Straube*:
Supramodal neural processing of abstract information conveyed by speech and gesture
- 10:30 Coffeebreak**
- 11:00 *Annika Herrmann and Markus Steinbach*:
What gesture and sign tell us about basic categories in language and beyond
- 12:00 End of session**
