
31. Jahrestagung der Deutschen Gesellschaft für Sprachwissenschaft

AG 13

Comparison constructions and similarity-based classification

Carla Umbach / Klaus von Heusinger

Die AG 13 findet statt in 11/212 (2. Stock im Schloss)

Mittwoch, 04. März 2009

14.00–15.00	Louise McNally <i>Classification strategies and the semantics of gradable adjectives</i>
15.00–15.30	Magdalena Schwager <i>Comparison with respect to degrees and less orderly properties</i>
15.30–16.00	Valentina Papa <i>Why there is only “quanto” in Italian</i>
16.00–16.30	K a f f e e p a u s e • C o f f e e b r e a k
16.30–17.30	Manfred Bierwisch <i>Negative degrees and other puzzles of comparison</i>
17.30–18.00	Regine Eckardt / Eberhard Winkler <i>Positive deviation – the argument structure of adjectives</i>

Donnerstag, 05. März 2009

09.00–10.00	Ulrike Hahn <i>What makes things similar?</i>
10.00–10.30	Frank Domahs <i>The comparison of quantities – a review on findings from cognitive psychology</i>
10.30–11.00	Ariel Cohen <i>Comparison and inference</i>
11.00–11.30	K a f f e e p a u s e • C o f f e e b r e a k
11.30–12.00	Robert van Rooij <i>Relevant indistinguishability</i>
12.00–12.30	Peter Alrenga <i>Dimensions in the semantics of comparatives: Similarity, scalarity, and identity</i>

Freitag, 06. März 2009

11.30–12.00	Pascal Amsil / Marianne Desmets <i>Parenthetical scalar comparatives</i>
12.00–12.30	Alexander Letuchiy <i>Comparison of entities and comparison of situations: Explaining asymmetries</i>
12.30–13.00	Peter Bosch <i>The inscrutability of similarity</i>
